GLIOMA CONCLAVE 2026

THEME: TRANSFORMING GLIOMA CARE WITH PRECISION THERAPY

21st February
2026

JW Marriott,
Aerocity, New Delhi

PROGRAM HIGHLIGHTS

- **Precision Glioma Care in Focus:** From radiogenomics and WHO CNS 6 to molecular-driven surgery and radiotherapy
- **Paradigm-Shifting Science:** Exclusive keynote on the INDIGO trial and the evolving role of IDH inhibition in low-grade gliomas
- **From Biology to Bedside:** Translating IDH mutation science into real-world, multimodal clinical practice
- **Beyond Survival:** Expert insights on quality of life, seizure control, and functional outcomes
- **Adult & Pediatric Perspectives:** Cutting-edge advances and interactive case discussions across the glioma spectrum

SCIENTIFIC PROGRAM

DATE: 21ST FEBRUARY'2026 | TIME: 14:00 – 20:00 IST

TIME	TOPIC	SPEAKER
14:00 -14:05	Welcome Note and Introduction	
Session 1: Redefining Glioma management Through Molecular and Imaging Precision		
Chairpersons: Dr. S. H. Advani, Dr. Kaushal Kalra, Dr. Dilip Panikar		
14:05-14:20	Radio genomics and Imaging biomarkers in Contemporary Gliomas	Dr. Adhithyan Rajendran
14:20-14:35	Advanced MRI and MRS approaches in IDH Mutant Glioma Subtypes: Structural and Metabolic Mapping	Dr. Vivek Tiwari
14:35-14:55	KEYNOTE: IDH mutant gliomas: Current concepts and emerging Insights	Dr. Chitra Sarkar
14:55-15:10	LGG: A Heterogenous group – A case for timely surgery	Dr. Aditya Gupta
15:10-15:15	Q and A	
Session 2: Newer advances in optimizing glioma management		
Chairpersons: Dr. V. S. Mehta, Dr. Munish Gairola, Dr. Vijay Saradhi		
15:15-15:30	Balancing cures and functional outcomes in glioma surgery	Dr. Anandh Balasubramaniam
15:30-15:45	Modern RT in gliomas in the molecular era	Dr. Anusheel Munshi
15:45-16:00	Tea Break	

SCIENTIFIC PROGRAM

DATE: 21ST FEBRUARY'2026 | TIME: 14:00 – 20:00 IST

TIME	TOPIC	SPEAKER
Session 3: From Molecular Insight to Clinical Impact: The Evolving Role of IDH Inhibition		
Chairpersons: Dr. Tejinder Kataria, Dr. Shyam Aggarwal, Dr. Ashis Pathak		
16:00-16:25	KEYNOTE: Gliomas in India: Drawing a Comprehensive Picture	Dr. Rakesh Jalali
16:25-16:30	Q N A	
16:30-16:55	Biology of IDH Mutation: Why Targeting the Driver Matters	Prof. Patrick Y. Wen
16:55-17:00	Q N A	
17:00-17:25	ISP KEYNOTE: The INDIGO Trial and a Paradigm Change in the Treatment of IDH-mutant Low-Grade Gliomas	Prof. Ingo Mellinghoff
17:25-17:30	Q N A	
17:30-17:45	Balancing Disease and Daily Life: QoL and Seizure Control in Glioma Care	Dr. Nitesh Rohatgi
17:45-18:15	Panel Discussion: Integrating IDH Inhibitors into Multimodal Glioma Care	Moderator: Dr. Vijay Patil Panelists: Prof. Ingo Mellinghoff Dr. Kushal Narang Dr. Dodul Mondal Dr. P Suresh Dr. Ashish Singh Dr. Aditya Murali Dr. Swaroop Gopal Dr. Chandragouda Dodagoudar

SCIENTIFIC PROGRAM

DATE: 21ST FEBRUARY'2026 | TIME: 14:00 – 20:00 IST

TIME	TOPIC	SPEAKER
Session 4: Decoding Pediatric Gliomas		
Chairpersons: Dr. G K Jadhav, Dr. C P Raghuram, Dr. Shekar Patil		
18:15-18:30	Contemporary Radiotherapy Paradigms in Paediatric Glioma	Dr. Tejpal Gupta
18:30-18:45	Contemporary systemic therapy Paradigms in Paediatric Glioma	Dr. Maya Prasad
18:45-19:00	Optimal surgical management of Glioma in 2026	Dr. Manas Panigrahi
19:00-19:30	Panel Discussion: One Disease, Two Worlds: Comparing Paediatric and Adult Glioma Management	<p>Moderator: Dr. Manas Kalra Dr. Manish Singhal</p> <p>Panelists: Dr. Sandeep Vaishya Dr. Gagan Saini Dr. Priya Tiwari Dr. Shweta Bansal Dr. Ravi Thippeswamy Dr. Lohith Reddy Dr. Bhooshan Zade Dr. Pankaj Panda Dr. Deepika Chauhan</p>
Session 5: Voices That Matter: Advocacy in Glioma		
Chairpersons: Dr. Sapna Manocha Verma, Dr. Narendra Kumar Bhalla		
19:30-19:50	Patient Advocacy in Glioma: Bridging Clinical Care and Patient Needs	Dr. Nitin Garg
19:50-20:00	Glioma Cases: Open Forum Discussion	
20:00	Closing Remarks Key Takeaways and Future Directions in Glioma Care
